WE ARE ITALIAN DESIGN CULTURE

ITA

IB RUBINETTI nasce nel 1985 da un'idea e dalla passione di elio bregoli fondatore e presidente dell'azienda. IB RUBINETTI scrive la sua storia su delle basi solide come la passione per il saper fare, l'amore per il design e la volontà di esportare la cultura italiana. Trent'anni dopo IB RUBINETTI porta questi valori ed i propri prodotti in sessantaquattro paesi nel mondo e sempre più rappresenta uno degli ambasciatori italiani del design.

FRA

IB RUBINETTI was born in the year 1985 from the idea and the passion of Elio Bregoli, founder and President of the company. IB RUBINETTI founds its history on solid basis like the know-how's passion, the love for the good design and the will to export the Italian culture. Thirty years later IB RUBINETTI still believes in these values and exports them in sixty-four countries around the world, establishing itself more and more as one of the ambassadors of the Italian design culture.

ENG

IB RUBINETTI est né en 1985 d'une idée et de la passion de Elio Bregoli, fondateur et Président de la société. IB RUBINETTI écrit son histoire sur une base solide comme une passion pour la qualité, l'amour pour la conception et la volonté d'exporter la culture italienne. Trente ans plus tard, IB RUBINETTI apporte ces valeurs et ses produits dans soixante-quatre pays dans le monde et de plus en plus est l'un des ambassadeurs du design italien.

LA COLLEZIONE

L'essenza del rubinetto industriale è nel design di BOLD, la nuova collezione disegnata da Federico Castelli & Antonio Gardoni. Contrassegnati da una zigrinatura che rende facile e agevole la presa, il nome rafforza la particolarità di questi rubinetti che prendono spunto dal design del rubinetto a sfera metropolitano, dove gli aspetti salienti sono la robustezza, l'essenzialità e funzionalità del movimento. Una collezione "di carattere", sintesi di un concept che si rifà all'estetica della leva, con la capacità di creare qualcosa di nuovo nel panorama del design del bagno. BOLD è disponibile con due tipologie di leve – quella "a leva" e "a volantino" – che si combinano a una collezione di prodotti. Un progetto che reinventa un design memorabile proponendosi con audacia nel design contemporaneo e lasciando il segno con un'idea fresca, coraggiosa e non ordinaria. "We are called to be BOLD".

THE COLLECTION

The industrial tap design essence is in the design of the BOLD Collection, the new product designed by Federico Castelli & Antonio Gardoni. Marked with a knurling that makes the grip easy and comfortable, the name reinforces the peculiarity of these taps, inspired by the metropolitan design of the industrial taps, where the salient aspects are robustness, essentiality and functionality. A strong collection, with "character", a synthesis of a concept that focuses on the aesthetics of the lever, with the will to create something new in the landscape of the bathroom design. BOLD is available with two types of levers - the "lever" and the "handwheel" - combined on a collection of products. A project that reinvents a memorable design with a contemporary touch and leaving the mark with a fresh, courageous and unusual idea. "We are called to be BOLD".

LA COLLECTION

L'essence du robinet industriel est dans la conception de BOLD, la nouvelle collection conçue par Federico Castelli et Antonio Gardoni. Marqué avec un quadrillage qui rend la poignée accessible et facile, le nom renforce la particularité de ces robinets, inspiré par le design du robinet à boisseau sphérique métropolitain, où les aspects les plus importants sont la robustesse, l'essentialité et la fonctionnalité du mouvement. Une collection de "personnage", une synthèse d'un concept qui met l'accent sur l'esthétique du levier, avec la capacité de créer quelque chose de nouveau dans le paysage de la conception de la salle de bains. BOLD est disponible avec deux types de leviers : le "levier" et le "manivelle" - qui se combinent avec une collection de produits. Un projet qui réinvente un design mémorable en se proposant audacieusement dans le design contemporain et laissant la marque avec une idée fraîche, courageuse et inhabituelle. "We are called to be BOLD".

The **BOLD** collection is the perfect combination of elemental elements reinterpreted in a contemporary way to suit a large spectrum of bathroom styles and a precise clear statement about water control.

BOLD è la perfetta combinazione di elementi semplici reinterpretati in chiave contemporanea, con un'esplicita estetica funzionale è capace di adattarsi ad ogni stile di bagno.

BOLD est la combinaison parfaite d'éléments simples réinterprétés dans une touche contemporaine. Avec une esthétique fonctionnelle distinctive elle peut s'adapter à tous les styles de salle de bain.

WE ARE
HIGH
QUALITY
MATERIALS

Essere presenti in 5 continenti e affrontare ogni giorno le necessità di ogni singolo paese ci mette nella condizione di non poter accettare nulla che non sia il meglio e proporre il meglio come standard minimo qualitativo. Per questo motivo iB realizza tutti i propri prodotti con materiali privi di zinco e di piombo senza prendere in considerazione se questo sia o non sia necessario in qualsiasi paese.

The need to manage and deal with different needs in many countries in 5 continents puts us in the position of not being able to accept anything but the best quality and offer this as our minimum standard of production. For this reason iB offers all of its products using the material without zinc and leadfree without worrying about the fact that this may or may not be an obligation or less in a country. We think of you.

WE ARE
REAL
MAKERS

Il mondo è diviso in due. C'è chi fa e chi guarda gli altri fare. C'è un'altra divisione: chi fa senza rischio, inseguendo le tendenze e c'è chi fa mettendo in gioco le proprie idee e i propri sogni partendo dalla propria esperienza, dalle proprie origini, ridiscutendo e reinventando ogni volta gli standard. Chi fa tutto questo oggi e lo fa da produttore, reale, toccando l'ottone, trasformando questo o altre materie prime in oggetti innovativi che rappresentano il design italiano, esattamente come fa IB RUBINETTI e pochissimi altri, è un maker. Fedeli al passato, coerenti con il presente e con la propria identità e lanciati verso il futuro.

World is divided into two categories. There are people doing things and people watching. There's an other division: there's who work without risking, following the trends and there's who works bringing into the game his own idea, beginning from his own roots, questioning and changing the standards. Who makes this today and makes it a real manufacturer, touching and transforming brass and the other raw materials into innovative objects that represent the Italian design, just like IB RUBINETTI and few others do, is a maker. Faithful to the past, coherent with the present and their own identity, lean out to the future.

Le monde est partagé en deux. Il y a ceux qui font et ceux qui regardent les autres faire. Il y a une autre division : ceux qui ne risquent, en chassant les tendances, et il y a ceux qui mettent en jeu leurs idées et leurs rêves, à partir de leur propre expérience, de leurs origines, en discutant et en réinventant chaque fois ses standards. Qui fait tout cela aujourd'hui et il le fait en tant que producteur, vrai, en touchant le laiton, tournant ce ou d'autres matières premières en objets innovants qui représentent le design italien, comme il le fait iB Rubineti et peu d'autres, il est un fabricant. Fidèles au passé, en accord avec le présent et avec sa propre identité et lancés vers l'avenir.

Antonio Gardoni e Federico Castelli si distinguono nel panorama internazionale come innovatori dei linguaggi legati all'esperienza dello spazio e come ideatori di oggetti che uniscono forma, funzione e pensiero teorico ai sistemi della comunicazione. Antonio Gardoni dal 1996 collabora con lo studio JUMP di Londra, con Federico Castelli nel 2008 apre una sede satellite dell'AG-studio Italia a Pechino, i loro progetti d'architettura, gli spazi pensati per la moda, il divertimento e il lavoro coniugano innovazione e ricerca estetica. Ogni loro progetto è caratterizzato da un linguaggio unico legato ad un processo che va oltre la cifra stilistica predeterminata. Gardoni e Castelli si dedicano con passione e spirito innovativo ai progetti più vari, dal disegno di interni residenziali agli stand fieristici includendo nel loro lavoro edizioni limitate sperimentali, prodotti industriali all'avanguardia.

Antonio Gardoni and Federico Castelli are internationally recognized innovators in the design language shaping the experience of the space and they are designers of products combining shape, function and conceptual thoughts with communication's tools. Antonio Gardoni from 1996 collaborates with JUMP studios in London and with Federico Castelli opened the satellite office of his Italian "AG-studio" in Beijing, their architectural projects and the spaces designed or fashion brands, entertainment and offices combine innovation and esthetic research. Every project is shaped by a unique language structured with a peculiar design process without aiming to standard predictable solutions. Gardoni and Castelli work with passion and innovative attitude in many different fields, from residential interiors to fair-booth design, together with experimental limited edition of furniture, avant-garde industrial products.

Antonio Gardoni et Federico Castelli se distinguent sur la scène internationale en tant qu'innovateurs de langages liés à l'expérience de l'espace et créateurs d'objets qui combinent la forme, la fonction et la pensée théorique avec les systèmes de communication.
